

Dynamik D90S New Generation- With Advanced Technology

Description

The new D90S convinced end users with profitable features, e.g. short rugged metal magazine and best ergonomic, durable, light weight tool design. Perfectly balanced tool to reduce operator fatigue. Especially designed for easy and accurate nail setting in tight corners.

Fastening applications :

Roofing, framing, truss building, sheathing, fencing, crate assembling, cable drums, etc.

Technical Data:

Type description:	D90S
Item Code:	12000502
Nail type:	34°, paper collated
Magazine type:	Rear loader
Magazine capacity:	67
Cycles per second, nails:	2-3
Mode of operation:	Single shot
Weight, kg:	3,9
Dimension L/W/H, mm:	383/120/384
Nail wire size Ø mm:	2,9 - 3,4
Nail length, mm:	50 - 90

Emission sound pressure at the workstation.: L_{pa, 1s, d} 96

Specification / Accessories

Tool, tool case, charger, two batteries, adapter (sleeve) for common 30 gram and 40 gram fuel cells, end user manual.

This tool conforms to the EG directive for machinery (98/37/EC).

Tool features and benefits:

Short magazine: Easy and accurate nail setting- better quality of finished work.

Perfectly balanced tool design- decreases operator fatigue and increases working efficiency.

Easier to reach tight corners- higher working productivity

Comfortable tool grip- fast and precise tool handling

Durable and reliable tool design- best tool investment money can buy

- **Unlimited shelf life** – no gas leakage
- **Clean combustion** – leaves practically no residue in tools because of clean gas & special lubricant
- **High precision metering valve** – for high fuel efficiency and more shots
- **Environmentally friendly** – “Green Point, CFC- free”
- **Fuel Cells usable down to -7°Celsius / 19° Fahrenheit**

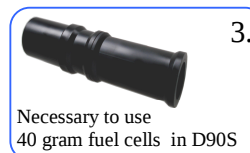

No gas losses thanks to
“Easy click on valve system”

Accessories:

1. Second battery included
2. Charger included
3. Sleeve included.
4. Car adapter on request

Necessary to use
40 gram fuel cells in D90S

D-Head Nails / Fuel-Packs :

- a.) Pack content 2+2: consists of 2 mille nails + 2 gas cans (40 gram each)
- b.) Pack content 4+4: consists of 4 mille nails + 4 gas cans (40 gram each)
- c.) Packs with 80 gram gas can on request
