

EASY TO LEARN AND OPERATE WHEN YOU KNOW HOW TO USE A COMPUTER

The most friendly engraver
The best design partner

YOU SHOULD READ THIS If

you want to create your own piece of art.

you want to turn ordinary gifts into memorable treasures.

"Finally I can make a model by myself." -- Ray Johnson -- figure model designer (21)

"It makes CNC machining so easy and fun!" -- Jamie -- student (17)

"Definitely a machine worth buying!" -- Bill -- Retired (67)

Software:

- Graphical User Interface

The vivid interface and simple operation has been designed for general users.

- Digital Photo

Engrave your photos on wood and acrylic easily. You just need to provide a digital photo. The EDIT software can read file formats such as: .bmp, .jpg, .png.

- High Compatibility

Compatible with Cut 2D, Cut 3D, PhotoVCarve, ArtCAM and BMP programs.

- Save Money

With our software suite: EDIT and CNC, you don't need to buy other off-the-shelf software to complete your own engraving project.

Operation:

- Easy to Operate

You don't need to think how to use it. Just follow 4C (Click, Convert, Command, Carve).

- So Easy, so Breezy!

Use the game pad to control the coordinates. So easy, so breezy.

- Design

This product has been designed especially for beginners. The operation is the most simple and straightforward in the world.

- Compact and Portable

You can move this compact and portable desktop tool from place to place. You can engrave wherever and whenever you like.

- All in One

You can DRILL, MILL, CUT, SHAPE and CARVE with this machine.

- Multi-Function:

Ideal for school teaching materials, hobbies, DIY projects and business.
